

Dear Veterinary Professional,

We are excited that you're one of first veterinary hospitals across the country to offer the PortionPro Rx! Thank you for signing up to be a part of this revolutionary, game-changing new device.

In this Welcome Kit you should have all the information you'll need to get your hospital ready to start prescribing the PortionPro Rx. Here's what's inside:

- **Client education brochures** for your waiting room, reception desk and exam rooms.
- **Counter cards** to get the attention of pet parents and encourage conversations with you.
- A brief **checklist** for pet parents to fill out while they wait for their appointment—this checklist helps identify clients who could be ideal candidates for the PortionPro Rx. Be sure to make copies to hand out!
- A **client identification guide** to help veterinarians and staff identify the ideal clients for the PortionPro Rx.
- A **prescribing guide** to help hospital staff determine how many devices and tags are needed based on each pet parents' situation.
- A copy of the AAHA dog and cat **weight management guide** to better identify overweight pets and make weight loss recommendations.

If you have any questions whatsoever about these materials, please don't hesitate to let us know. We want to be sure you have everything you need for success!

Thank you again for your participation in the launch of the PortionPro Rx!

Sincerely

Suzanne Meck
